12. 点击“保存图片”按钮，保存学信网“图像采集码”至相册。后期重新进入“江苏图采”小程序进行扫码识别即可。

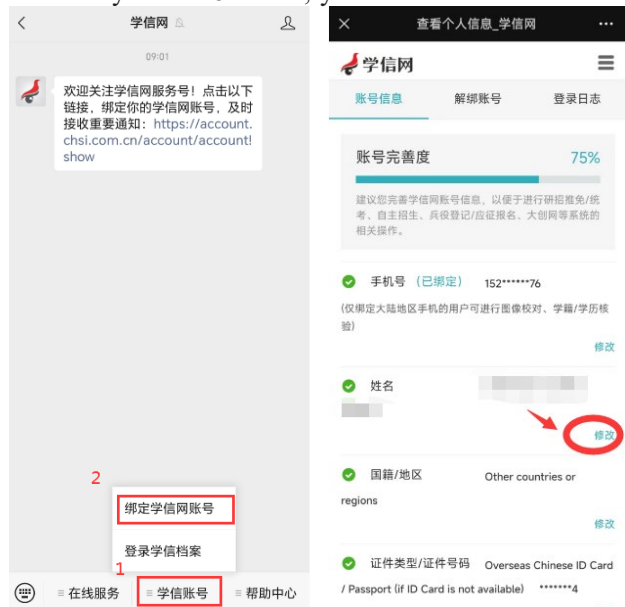

Click "Save" to save the QR code to the album. In WeChat, search the mini-program “江苏图采” and scan the code you saved to access the photo shooting.

If step 9 does not work, follow the next steps.

1. Verify your name information and modify if necessary. The **NAME** and **PASSPORT NUMBER** should be consistent with the namelist.

Note: if you fail 5 times, you will have to wait for the next day to try again.

2. If step one doesn't work, click on “方式 2” to authenticate your Passport (The pictures have to be smaller than 1M).

**Note:**

1. In Pic1 your passport information has to be readable and your face on focus. It can be tricky to find the right spot, but it is important to avoid rejections from the system.
2. If the real name verification is done, the system will automatically open upon your next login. If it fails, you will receive a text message on your mobile phone or through your email. You can also check below the verification page for feedback from CHSI if the verification failed.
